

BlueLinx is the former distribution division of Georgia-Pacific. We are now an independent corporation that distributes building materials throughout North America. I have an entry level position open and would like to interview candidates from your university. Any major is acceptable. The position has been designed to train individuals to procure, market, and sell building materials. Communication, Organization, and Problem Solving skills are a must. The individual would learn every aspect of our business so that they would be prepared to manage a product group within six months to one year. The position is located here in Southeastern Denver, but would require occasional travel to visit vendors and customers. If I can answer any questions regarding the position, please don't hesitate to ask. I can be reached at 303-706-8068. Or, my mailing address is:

Shannon Kelly
