

Engineering Position

Local Harrisonburg or Salem sales/engineering office of Timber Truss Housing Systems based in Salem Virginia is looking for a Civil, Mechanical, or Structural Engineering, or Wood Science graduate to do engineering of wood structural components and some timber beams to the local residential and commercial market. Previous experience in the construction industry as a framer or helper would be a plus. Computer experience and working knowledge of most Microsoft Office Suite programs would be very helpful. Training on a very specific structural program for this industry will be provided on the job. Salary in high thirties based on experience, 401K, vacation, health insurance, life insurance, and many other benefits. Job is full time and opening is immediate. Please call or write:
